Solution

Warns pedestrians of vehicles exiting alleys, compact parking exits, blind driveways, and tight drive lanes using a compact illuminated sign and voice alert.

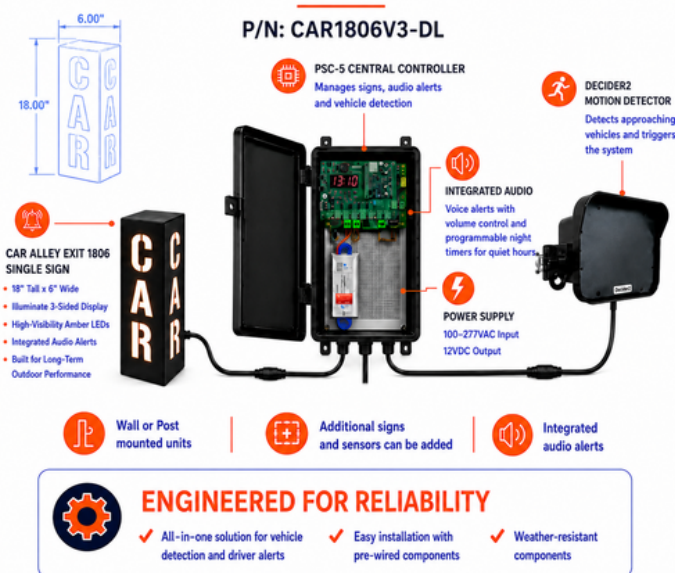

Description

The Car Alley Exit Warning Sign 1806 Single Lane Exit Kit includes the CAR1806 warning sign, PSC-5 Control Board, and Decider2 vehicle motion detector. When a vehicle exits, Decider2 activates the PSC-5, which flashes the sign and plays voice alerts to warn pedestrians and improve safety at blind exits.

Operations

This KIT uses a Decider2 intelligent vehicle motion detector to activate the system. When activated the CAR text flashes and the audio plays, "Attention! Vehicle exiting, watch for vehicles." The sign stays activated for 10 Seconds (adjustable) until the Activation Timer ends. If another vehicle exits during this period, the Activation Timer will restart. Audio Cut-Off Timer: Audio can be programmed to turn off audio at designated times for nearby residential.
