Solution

Warns pedestrians of vehicles exiting alleys, compact parking exits, blind driveways, and tight drive lanes using a compact illuminated sign and voice alert.

Description

The Car Alley Exit Warning Sign 1806 Dual Sign Kit is designed for wide exits where visibility is needed from multiple angles. The kit includes two CAR1806 warning signs, the PSC-5 Control Board, and Decider2 vehicle motion detection. When a vehicle exits, the PSC-5 flashes both signs and plays voice alerts to warn pedestrians.

Operations

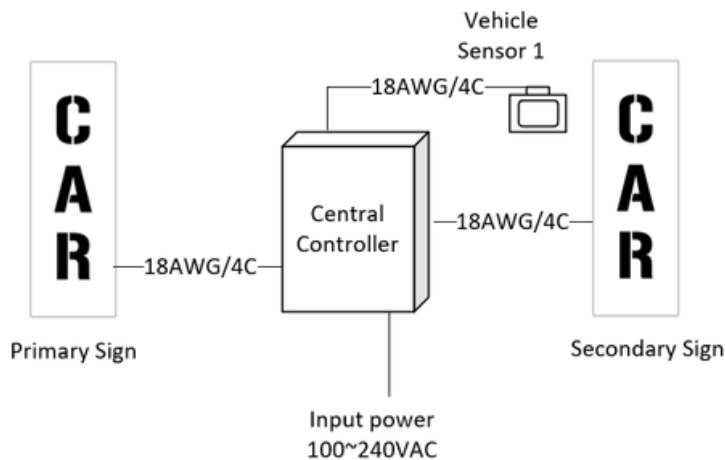

This KIT uses a Decider2 intelligent vehicle motion detector to activate the system. When activated the CAR Signs text flashes and the audio plays, "Attention! Vehicle exiting, watch for vehicles." Both signs stay activated for 10 Seconds (adjustable) until the Activation Timer ends. If another vehicle exits during this period, the Activation Timer will restart. Audio Cut-Off Timer: Audio can be programmed to turn off audio at designated times for nearby residential.
