

CC4807V4

Car Coming Post 4807 - Vehicle Exiting Post

THE ENGINEERING IS DONE

Intelligent Warning Systems and Signs

Details

Part Number	CC4807V4
Part Name	Car Coming Post 4807 - Vehicle Exiting Post
Type	Vehicle Exiting Signs
Dimensions	48"H x 7"W x 7"D 4-sided Text
Material	14AWG Aluminum
Finish	Powder coated, hammered copper
Rating	Outdoor rated - direct weather
Controller	PSC-5 Sign Control Board

Solution

Warns pedestrians and drivers of vehicles exiting parking garages, wide exits, blind drive lanes, and mixed pedestrian areas using a four-sided illuminated post and voice alert.

Description

The Car Coming Post 4807 alerts pedestrians and drivers to approaching vehicles with four-sided illuminated CAR COMING and GO SLOW messaging and voice warnings. Powered by the PSC Intelligent Controller, it supports programmable outputs, activation timers, and audio cut-off timers. Built for outdoor vehicle exit areas, it is sensor-compatible and ready for parking facility and wide-exit installations.

Operations

The Post uses a Trigger Device to activate the system. When activated the CAR COMING and GO SLOW text flashes and the audio plays, "Attention! Vehicle exiting, watch for vehicles." The post stays activated for 10 Seconds (adjustable) until the Activation Timer ends. If another vehicle exits during this period, the Activation Timer will restart.
Audio Cut-Off Timer: Audio can be programmed to turn off audio at designated times for nearby residential.

 **Parking Alert Signs**
Engineered safety systems for your parking facilities

CAR COMING 4807 Post

Ground mounted post for single lane vehicle exiting

P/N: CC4807V4

CAR COMING 4807 WARNING POST

- 48" Tall x 7" Wide
- Illuminated 4-Sided Display
- High-Visibility Amber LEDs
- Integrated Audio Alerts
- Built for Long-Term Outdoor Performance

PSC-5 CENTRAL CONTROLLER
Manages signs, audio alerts and vehicle detection

INTEGRATED AUDIO
Loud, clear alerts increase driver awareness

POWER SUPPLY
100-277VAC Input
12VDC Output

SYSTEM TRIGGERS
Activate the sign with one of the following triggers

- Vehicle motion detector - Decider2
- Vehicle loop detector - LD01
- Gate open output
- Presence Detector - EchoSense20

Ground mounted units

Integrated audio alerts

Additional signs and sensors can be added

ENGINEERED FOR RELIABILITY

- ✓ All-in-one solution for vehicle detection and driver alerts
- ✓ Easy installation with pre-wired components
- ✓ Weather-resistant components built for long-term performance

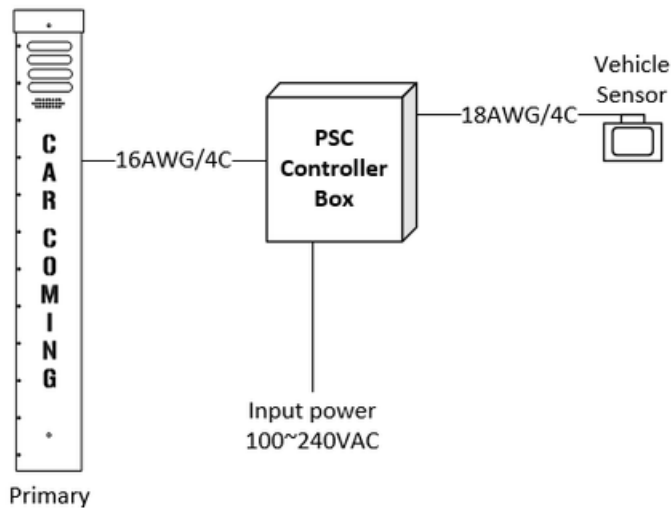

Includes

- (1) CC4807V4 Car Coming Post with LEDs and SP2 20W Speaker
- (1) Central Controller, PSC-5, Control Board with Audio
- (1) PS126 Power Supply 100-240VAC to 12VDC
- No trigger device

Add additional signs and sensors as needed

Common Cabling

CC4807VG4-KIT common cabling for single sensor

Application

- Parking garage exits
- Wide drive exits
- Pedestrian sidewalk crossings
- Blind exits
- Valet and hotel exits
- Mixed vehicle-pedestrian areas

Triggers

- Decider2
- LD-01
- PS-Narrow

Accessories

- SALFP1812
- EP720404
- SP1-Speaker

Engineered Kits
